

The “Tear of the Pine” wins three top distinctions

In a year that is already full of impressive achievements, the “Tear of the Pine” the premium retsina of “Stelios Kechris Domaine”, wins new distinctions in important international competitions, further highlighting the quality and the value of this traditional Greek wine. The latest accolade comes from the “International Wine Challenge”, one of the most respectful wine competitions, in which the “Tear of the Pine” was awarded a gold medal, the only one beside the 5 silver and 19 bronze awards that Greece won in total.

After the golden medals received in the “Thessaloniki International Wine Competition” and the “Vinalies Internationales”, this is the 3rd gold won by the Tear of the Pine in 2015 and the 10th since 2006, when it was launched in the market.

Apart from the gold medal, in the same competition the “Tear of the Pine” received also the Retsina and the Greek White Trophies, two higher distinctions proving that the “Tear of the Pine” is the best wine in these categories and that retsina can be a high-end white wine of exceptional quality.

Two more of the wines of Stelios Kechris Domaine were awarded in the same competition, “Kechribari” and “Genesis” 2013, each with a bronze medal, keeping up their longstanding tradition in winning awards.
