

Another year of important accolades for retsina

In 2016, KECHRIS winery celebrates the 10th anniversary from the creation of the “Tear of the Pine”, a wine that has set up new standards in its category, proving that retsina can be a world-class wine with the potential to evolve with time. This year is therefore an important milestone and one more step in a creative journey that continues with the same passion and the same consistency in quality. This consistency is proved by the awards that our wines receive every year in all the important international competitions.

2016, another year of important accolades, is no exception to this course. Among this year’s more than 15 distinctions the most distinguished ones are the gold medal that the “Tear of the Pine” won for the third consecutive time at the Vinalies Internationales competition, but also the 92/100 rating that Wine Enthusiast magazine gave to the same wine, one of the highest ever awarded to a Greek wine. In the same tasting, our other retsina, “Kechribari”, scored 88/100, winning a coveted place on the “Best Buy” list. Finally, it is worth mentioning that these two retsinas received a silver medal at the San Francisco International Wine Competition in their first participation in this event.

Finally, in the recent tasting of Wine& Spirits magazine the “Tear of the Pine” was given an outstanding rating of 90/100, which placed retsina, once again, among the most prominent wines not only of the Greek, but of the international vineyard as well.
